360° Rotatable,
color-coded
Instruments

360° ROTATABLE INSTRUMENTS

Dedicated Instruments for Urology and Hysteroscopy

The unique design and features of the rotating color coded instruments have been designed in cooperation with Dr Accardi. Multiple years of experience in using dedicated instruments have led to this design and functionality.

The automatic holding mechanism combined with the 360° rotation of the jaw and the light design will improve your comfort.

Available in 4 and 5 Charr. diameter
- rigid, semi rigid and flexible

Automatic closing mechanism -
active holding of tissue due to
internal spring system

Color-coded wheel to
indicate the different jaws

Overload protection helps
to prevent damage

Surface lotus effect
increase corrosion
resistance

360° rotation just
with your finger tip

Ergonomic, lightweight
handle
